**Re: McLeodUSA Telecommunications Services, Inc. d/b/a PAETEC Business Services,  
Revision to ACC Tariff No. 3**

Docket Control:

McLeodUSA Telecommunications Services, Inc. d/b/a PAETEC Business Services ("McLeodUSA") hereby transmits for filing an original and thirteen (13) copies of the revision to our McLeodUSA IntraLATA Toll and Local Exchange Tariff No. 3 ("ACC Tariff No. 3"). In this filing, McLeodUSA is adding language and rates for Direct Trunk Overflow (Sheet Nos. 62 and 78); grandfathering the description for Market Expansion Lines (Sheet Nos. 61 and 141.58) (the rates for Market Expansion Lines were previously grandfathered on 1/14/09; the description was inadvertently left in). The Table of Contents (Sheet Nos. 9 and 10) and the Check Sheets (Sheet Nos. 2 and 3.1) were modified accordingly. McLeodUSA requests an Administrative Approval for this filing.

This filing has an issue date of April 21, 2009 and a proposed effective date of June 1, 2009. Please file stamp the extra copy and return it to me in the enclosed, self-addressed, stamped envelope. If you have any questions regarding this filing please contact me at (281) 465-1431 or by email at [julie.dishman@mcleodusa.com](mailto:julie.dishman@mcleodusa.com). Thank you for your time and consideration in this matter.

Enclosures

Sincerely,

Julie Dishman  
Manager, Regulatory & Tariffs

### CHECK SHEET

The sheets of this tariff are effective as of the date shown at the bottom of the respective sheets. Original and revised sheets as named below comprise all changes from the original tariff that are currently in effect as of the date at the bottom of this sheet.

3.0 Description of Services Offered (cont'd)

3.9 Reserved for future use

(M)

(M)

3.10 Remote Call Forwarding

Remote Call Forwarding (RCF) is a local exchange telecommunications service feature whereby all calls dialed to a telephone number equipped for RCF are automatically forwarded to another dialable exchange or 8XX Service telephone number. The calling party pays only the applicable charges to call the number equipped with an RCF feature, while the RCF Customer pays the applicable charges for the forwarded portion of the call. Remote Call Forwarding service is offered subject to availability of suitable facilities. Remote Call Forwarding service is not offered where the terminating station is a coin telephone. McLeodUSA will not provide identification of the originating telephone number to the RCF Customer.

3.11 Private Switch Automatic Location Identification (PS/ALI)

This service is offered subject to the availability of appropriate facilities. It enables the customer to interface with the E911 database to provide address and location information for the stations that operate behind their switch. This information includes the PBX customers' names, addresses, and other location information which are associated with specific PBX station telephone numbers. The PS/ALI customer may be a municipality or other state or local governmental unit, or an authorized agent of one or more municipalities or other state or local governmental units to whom authority has been lawfully delegated, or a PBX owner/operator who has been required or who desires to provide PBX station specific location information to the E911 system. The PS/ALI customer must be authorized by the 911 jurisdiction to subscribe to PS/ALI service, and obtaining such authorization is the responsibility of the customer.

This service is offered as either Standard or Advanced. For Standard PS/ ALI, information is loaded and managed via McLeodUSA's existing interface to the database provider. For Advanced PS/ALI, the customer manages 911 information via a direct PC interface to the database provider.

(Market Expansion Lines were grandfathered and moved to Section 6.24)

---

3.0 Description of Services Offered (cont'd)

3.12 Group Billing

This service is a unique invoice option for business customers with multiple locations. Group Billing allows customers to establish a tier system in which a main or "parent" account can have multiple sub or "child" accounts and pay the "child" invoices for all locations, some locations or no locations. Summary information is available to the "parent" for all "child" accounts and "child" accounts can receive individual invoice detail regardless of who is remitting payment. Group Billing can be used in partnership with McLeodUSA's Toll Free application.

At service set-up, customer must determine the locations responsible for payment remittance. Although "child" accounts may be responsible for payment, "parent" accounts are ultimately responsible for past due balances on "child" accounts. If a "child" account disconnects service, any past due balance will be transferred to the "parent" account. Payment disputes between "parent" and "child" accounts are not the responsibility of McLeodUSA.

3.13 Direct Trunk Overflow

The Direct Trunk Overflow (DTO) feature, where available, gives the Customer another termination option if all of their DID trunks are busy. This all-trunks-busy condition may be caused either by legitimate heavy incoming traffic or by a trouble condition where the T-1 system is down and the switch senses that trouble as an all-trunks-busy condition. During either busy condition, the incoming call attempts to terminate to the DID group. When the switch sees all trunks busy, it will choose an alternate route for the call to a telephone number that is programmed in the switch only. This telephone number has the Call Forward Remote feature assigned to it and forwards the call to a number chosen by the Customer.

Remote Access DTO enables the customer to activate and/or update the Call Forwarding on their DTO from any location. The customer uses a provided remote-access toll free number, the DTO Call Forwarding line and their four-digit PIN to review or change their call forwarding number.

Rates for DTO and Remote Access DTO can be found in Section 4.3.3.

Rates moved to Section 4.3.3.J

The monthly recurring charges will be waived on the line associated with an active Voice Mail box.

(Rate Table 3.5: Market Expansion Lines (MEL) is grandfathered and moved to Section 6.24.)

6.0 Grandfathered Services/Products (cont'd)

6.24 Long Distance Interexchange and 800 Services (cont'd)

B. Rates (cont'd)

Market Expansion Line (MEL)

MEL is a service whereby a call placed from an exchange access service to a MEL customer's telephone number (the forwarded-to location) is automatically forwarded by telephone company serving office equipment to the customer's remote location. Terminating stations must have incoming call capability. MEL are available when used in conjunction with long distance or 800 Service. MEL are billed in one minute increments.

(M)

(M)

Monthly rate for a feature may vary depending on whether service is provided via McLeodUSA local switching platform. See section 5.1 to determine the platform that services are provided.

	<u>Monthly Rate</u>			
	<u>McLeodUSA</u>		<u>Non-McLeodUSA</u>	
	<u>Switch Facilities</u>		<u>Switch Facilities</u>	
	Current	Max	Current	Max
Per Path	\$16.00	\$55.00	\$13.45	\$55.00
Usage - Per Minute	\$ 0.03	\$ 0.10	\$ 0.03	\$ 0.10

Residential Preferred Advantage<sup>SM</sup> Long Distance Packages and Overage Rates for Customers not Served by a McLeodUSA Switch.

This is a switch long distance service that is available to Customers with a physical location served by Preferred Advantage local voice service that is not provided by a McLeodUSA Switch.

<b>Residential Preferred Advantage<sup>SM</sup> Long Distance Off Switch</b>	<b>Monthly Rate</b>	<b>Overage Rate/Minute</b>
No Package	N/A	\$0.120
60 anytime LD minutes	\$6.60	\$0.120
120 anytime LD minutes	\$12.60	\$0.115
180 anytime LD minutes	\$18.00	\$0.110
240 anytime LD minutes	\$22.80	\$0.105
300 anytime LD minutes	\$27.00	\$0.100
500 anytime LD minutes	\$45.50	\$0.095
700 anytime LD minutes	\$56.00	\$0.090

All long distance calls will be recorded and all calls billed at the Overage Rate will be billed in one (1) minute increments for residential customers.
